

NEW + REVISED FOR 2020

Andrology EQA

| | | | |
|---|---------|----------------|--|
| 1 | SPMT432 | Sperm Motility | New program. Online videos are offered, and participants will report the percentages of motile and immotile sperm. |
|---|---------|----------------|--|

Bacteriology EQA

| | | | |
|---|---------|---|--|
| 2 | CRES435 | Carbapenem Resistant Enterobacteriaceae | New program. Applicable to both culture and molecular methods. |
| 3 | MRSA435 | Methicillin Resistant Staphylococcus aureus | New sample type – simulated clinical swab. Applicable to both culture and molecular methods. |
| 4 | STRB435 | Group B Streptococcus Screening | New program. Applicable to both culture and molecular methods. |
| 5 | VREN435 | Vancomycin Resistant Enterococcus | New sample type – simulated clinical swab. Applicable to both culture and molecular methods. |

Chemistry EQA

| | | | |
|----|--------------------------|-----------------------|---|
| 6 | BCHE432/433/435/443/4121 | Chemistry/Immunoassay | The following analytes will be discontinued for 2020 - Acid Phosphatase (non-prostatic), Aldolase, Alpha-Hydroxybutyrate Dehydrogenase, Amikacin, Beta-2-Microglobulin, Bile Acids, Copper, Estriol-Unconjugated, Ethosuximide, Glutamate Dehydrogenase, Growth Hormone, Lidocaine, N-acetyl procainamide, Phenylalanine, Primidone, Procainamide, Quinidine, Thyroglobulin, T-Uptake Unit, Zinc. |
| 7 | ENDO432/443/435/4121 | Endocrinology | Discontinued for 2020. Participants will be renewed to BCHE432/443/435/4121. |
| 8 | SPCH432 | Special Chemistry | The following analytes will be discontinued for 2020 - Carcinoembryonic Antigen, PSA. |
| 9 | SPRO442/435/4121 | Specific Proteins | The following analytes will be discontinued for 2020 - Alpha-fetoprotein, Ferritin, Transferrin. |
| 10 | TUMK432/443/4121 | Tumor Markers | The following analytes will be discontinued for 2020 - Cancer Antigen 72-4, Cytokeratin 19 (CYFRA 21-1), Ferritin, Neuron-specific Enolase. |

Clinical Nucleic Acid Testing EQA

| | | | |
|----|---------|------------------------------------|--|
| 11 | HCVL435 | HCV RNA Viral Load | Discontinued for 2020. Participants will be renewed to the new HCVQ435 program (HCV RNA Qualitative and Viral Load). |
| 12 | HCVN435 | HCV RNA Qualitative | Discontinued for 2020. Participants will be renewed to the new HCVQ435 program (HCV RNA Qualitative and Viral Load). |
| 13 | HCVQ435 | HCV RNA Qualitative and Viral Load | New program. Combination of HCV RNA Viral Load (HCVL) and HCV RNA Qualitative (HCVN) programs. |

NEW + REVISED FOR 2020

Clinical Serology EQA

14 HIVA432/435 HIV New analyte - p24 Antigen.

Coagulation EQA

15 ORAC432 Oral Anticoagulant Monitoring Discontinued for 2020. Participants will be renewed to COAG432 (Coagulation).

16 THBP432/442 Thrombophilia Discontinued for 2020.

Diagnostic Immunology EQA

17 AIAP432 Antiphospholipid Autoimmunity Discontinued for 2020.

18 AIAR432 Rheumatologic Arthritis Autoimmunity Discontinued for 2020.

19 AICN432 Anti-Neutrophil Cytoplasm Discontinued for 2020.

20 AIOR432 Organ Autoimmunity Discontinued for 2020.

21 AIRH432 Rheumatologic Autoimmunity Discontinued for 2020. Participants will be renewed to ANAB435 (Anti-Nuclear Antibody).

22 ALFO433 Inhalant and Food Allergy New program. Combination of ALLY 433/443 (Inhalant Allergy) and FOOD 433/443 (Food Allergy) programs.

23 ALLY433/443 Inhalant Allergy Discontinued for 2020. Participants will be renewed to ALFO433.

24 FOOD433/443 Food Allergy Discontinued for 2020. Participants will be renewed to ALFO433.

25 HCRP432 High Sensitivity C-Reactive Protein Discontinued for 2020. Participants will be renewed to CARM432 (Cardiac Markers).

Hematology EQA

26 BFLM432 Body Fluids Differential New program. Slide scans of Wright-Giemsa stained, cytopsin prepared body fluids are offered, in a virtual format. Participants will perform cell identification and nucleated cell differential.

Matrix Insensitive Chemistry EQA

27 THDM433 Therapeutic Drug Monitoring Discontinued analytes - Digoxin, Methotrexate, Valproic Acid.

Molecular Diagnostics EQA

28 TBRR432 M. tuberculosis and Rifampin Re-sistance Discontinued for 2020. Participants will be renewed to MTBN432 (Mycobacterium tuberculosis).

NEW + REVISED FOR 2020

Mycology EQA

| | | | |
|----|---------|------------------------|--|
| 29 | MOLC435 | Mold/Yeast Culture | Discontinued for 2020. Participants will be renewed to MYCC435 (Mold and Yeast Culture). |
| 30 | MYCC435 | Mold and Yeast Culture | New program. Combination of Mold/Yeast Culture (MOLC) and Yeast Culture (YEAC) programs. |
| 31 | YEAC435 | Yeast Culture | Discontinued for 2020. Participants will be renewed to MYCC435 (Mold and Yeast Culture). |

Parasitology EQA

| | | | |
|----|-------------|---------------------------------|---|
| 32 | BLPA435 | Blood Parasites | 435 program format is discontinued. Participants enrolled in BLPA435 will be renewed to BLPA432. |
| 33 | MAAG432 | Malaria Antigen | New program. Participants will detect the presence of Plasmodium falciparum and/or other Plasmodium species, using Point of Care test kits. |
| 34 | PVAS432/435 | PVA Smear | Discontinued for 2020. |
| 35 | TVAG435 | Trichomonas vaginalis Detection | New program. Applicable to both molecular and serology methods. |
